Recoveries

Introduction to Platinum Recoveries

January 2014

PRL Headquarters, Swindon, Wiltshire, England

PRL is the UK's largest exclusive recycler of catalytic converters

- ✦ PRL is one of the world's leading recycling companies specialising in the recovery of platinum group metals (PGM's) from auto catalytic converters and PGM bearing ceramic.
- ✦ Headquartered in Swindon, Wiltshire and operating across the whole of the UK and Internationally including Europe, Asia and Americas.

PRL's modern facilities dedicated to the recycling of auto-cats

We have strong corporate values

We have identified five values which underpin everything we do. They help to guide how we behave and how we interact with our supply partners. At all times, we strive to maintain;

Strong policies on

Safety

Business Integrity

Sustainable Development

Employment

Harnessing the recoverable wealth
from waste products

Strong focus on

Environmental best practice

Innovation

Strong emphasis on

Partnerships

Fairness

UK's largest exclusive recycler of auto-cats

PRL is committed to develop the auto cat recycling market and to deliver value to its partners.

- ✦ Platinum Recoveries has processed lots of recycled auto material for several years, gaining expertise and knowledge of how to extract the best value from spent auto cats in a zero land fill and environmentally sensitive process.
- ✦ Our company has invested heavily in establishing its own laboratory, building data banks and developing processes that allow our supply partners to receive the very best value from the material they supplied to us.
- ✦ We are ISO 14001 accredited and fully licensed by the Environment Agency

Zero landfill recycling

Why use PRL to recycle your auto cats?

- ✔ PRL is an established and fully licenced recycling house
- ✔ PRL operate on an open book and believe in delivering to its supply partners, the best possible returns for its material
- ✔ Quick, easy transactions with a nationwide collection service
- ✔ Transparent, consistent valuations
- ✔ Zero landfill recycling within the UK
- ✔ Full documentation supplied to meet your company commitments to the Environmental best practices and to meet the UK regulations for the disposal of material
- ✔ Sustainable and increased profit line by dealing direct with a specialist recycling house.

Welcome to PRL

Platinum
Recoveries
